Ultra Light®

Hinged Liquid Dispensing

Ideal for squeezable products, the **Ultra Light Flip Top Closure** helps to solve the age-old problem of ingredient separation. This new design features a liquid trap that keeps the separated liquid inside the bottle. The cap's modern 180° recessed opening promotes an easy-to-open, cleaner, more sanitary orifice area that is positioned to provide improved directional dispensing.

Made in the USA

Key Consumer Benefits:

Features	Benefits
Flap style dispensing	No lost caps, product freshness, no cap removal necessary, easy to squeeze and pour
Multiple colors, sizes, liners and quantities	Environmentally friendly
Liquid trap design	Reduces amount of seperated liquid being dispensed before product
180° recessed opening	Easy to open at various angles
Audible "snap"	Denotes security and product freshness

Key Manufacturer Benefits:

Features	Benefits
Modern appearance	Shelf impact–builds brand image
Lightweight	Improved sustainability, lower shipping costs
Printable surface	Enhance brand image and perceived value
