

PET JUPITER OBLONGS

The 64-ounce Jupiter Oblong has become the industry standard for environmentally-responsible automotive appearance product packaging. And now, new 48-ounce bottles are available that are perfect for automotive products, household soaps and chemicals and anti-bacterial products. This line is also ideal for ice melts and other dry powders or pelletized products. Available in up to 30% post-consumer (recycled) PET, and featuring a convenient gripper area, these lightweight and durable bottles will help you make the transition from PVC to Earth-friendly PET.

PET CAPLESS FUEL SYSTEM ROUND

The new 12-ounce additive bottle features a special patent-pending neck design that allows it to be used in both capless and conventional automotive fuel tanks. The capless fuel system bottle works by engaging the internal seal in a way that does not damage the seal and allows consumers to easily use the products. A 6-ounce bottle is also under development.
