

PET WIDE MOUTH BOTTLES & JARS

PET PINCH WAIST PACKERS

The new line of PET Pinch Waist Packers features a 53mm neck across all three sizes, so the line is ideal for filling large tablets and supplements in gummy form. The neck threads are also deep enough to accept a CRC closure. The sleek tapered waist sets your product apart on retail shelves, and works particularly well with full-body shrink sleeves.

PET SQUARE PACKERS

Wide mouth square packers are typically used for pharmaceuticals, vitamins and nutritional supplements in pill or tablet form, although they can also be used for liquids. The PET resin is clear, shatterproof and recyclable. It also accepts colorants well for transparent, translucent and opaque effects.

PET TUSCANY JARS

The two sizes of Tuscany Jars are ideal for upscale personal care products such as bath salts, body scrubs, hair gels and more. The PET resin has the classic appeal of glass, but won't break on the bathroom floor. It also accepts colorants well. Try it in clear frost, or let us color-match the custom colors of your existing packaging lines!
